TO DOUBLE OUTPUT OF BIOLOGICALS IN 1950

1949 PLAN COMPLETED IN 10 MONTHS -- Wola Indu, No 28, 27 Dec 49

According to reports presented at the annual meeting of the State Veterinarian Institute held in Pulawy, the 1949 production plan of biologicals and veterinarian medicaments was completed in 10 months. The plan was exceeded by the widest margin in the production of antirabies vaccines, a fact which enabled the State Veterinarian Service to operate with greater efficiency.

Plants producing biological and veterinarian medications will be expanded in 1950. Production of these articles in 1950 will be double that in 1949, and will be sufficient for Poland's needs.

BYDGOSZCZ HOSPITAL SHOULD HAVE TB WARD -- Ziemia Pomorska, No 354, 25 Dec 49

The activation of a ward for surgical treatment of tuberculosis in the Bydgoszcz Municipal Hospital would help the antituberculosis drive in the area. In such a ward extrapleura pneumothorax, severing of the diaphragm nerve, and thorocoplasty in all its modifications could be applied. Only the Bydgoszcz Municipal Hospital can activate such a ward since it already has an X-ray unit equipped with a tomograph, surgical specialists, and the necessary instruments.

POMORZE WOJEWODZTWO ORGANIZES ANTIRAT DRIVE -- Ziemia Pomorska, No 325,
26 Nov 49

Pomorze Wojewodztwo organized an intensive 3-day drive against rats 10-12 November 1949 with the use of poisonous bait.

Many real estate superintendents and managers of repair shops and warehouses failed to apply the bait in their premises. The City Health Department has ordered all who have not already done so to purchase bait by 26 November 1949 at the department's office at 12 Waly Jagiellonskie. Those who will fail to contribute to the success of the drive will be severely punished.
